

Steven Kulesza

Front-End Developer, Designer, Illustrator

(678) 977-4828 INFO@STEVENKULESZA.COM STEVENKULESZA.COM

Introduction

I have a passion for solving problems, constantly improving and learning, and creating dynamic web-based business solutions. My expertise lies in front-end development, design, and illustration.

Experience

Killer Shark Marketing

Web Developer/Designer

February 2015 to Present

Designed and developed many websites and branding packages in a fast pace environment utilizing all of my skill-set.

Market Craft Technologies

Web Developer/Designer

January 2013 to 2015

Worked with a small team of creatives on multiple projects, ranging from e-Commerce to business website development. Held responsibilities in debugging front-end problems. Curated the design and spearheaded the integration development and marketing techniques.

Guy Gunter & Associates

Web Developer/Designer

December 2012 to 2015

Worked directly for an appliance company developing their e-Commerce (Django) experience, business branding and web presence. Managed a team of developers aggregating tens of thousands of products.

Freelance

Developer, Designer & Illustrator

2009 - Present

Freelance development, art and design working with clients in the music industry. Creating a niche style market designing merchandise.
